DETAILED ACTION

1. The Reissue Patent Application Transmittal filed on 10/12/2001 indicated that Drawings have filed therewith. However, for some reason, there is no Drawings found in the reissue patent application. Applicant is required to provide another set of Drawings in response to this Office Action.

2. Claims 1-8,10 are under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claim 1, at the end, the recitation "different type and enclosure" is definite. It appears to be - - different type of enclosures - -.

As per claim 10, the recitation "containing essentially all the components of a general purpose computer", line 3, is indefinite as to what components are included or excluded.

Further, "operative", line 14, should be - - inoperative - -.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2193

4. Claims 1-6,8,12 and 13 are under 35 U.S.C. 102(b) being clearly anticipated by Kobayashi (5,463,742).

As per claims 1,5,6,8,12 and 13, Kobayashi discloses in figure 1, a core computer unit (2) including internal core components (see figure 2) having internal non-volatile mass storage (19), an external core connector (22 see figure 2), and power connection means via the external core connector for electrical connection to an enclosure (see col. 3, lines 15-17) as claimed.

As per claims 2-4, Kobayashi also discloses in figure 2, the unit has means (22) via the enclosure to communicate with a plurality of functions as claimed including at least PCMCIA cards (44).

5. Claims 9 and 11 are allowed.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2193

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
